& Promote Antler Growth  
With KBO Crunch  
Extreme.**

## **Developed from one man's pursuit of a healthy herd and the harvesting of world class bucks.**

Brad Snow, owner and operator of Kill'n Buck Outfitters in Killbuck, Ohio has been successfully hunting whitetails for 36 years. For the last 12, he has been leading world class hunts on his property. Creating a healthy deer herd is his primary goal. Harvesting world class bucks is a result of proper management & nutrition. Through the years various companies have approached him to promote their products. 7 years ago, frustrated with the performance of those products, he started to blend his own ingredients and experiment on his 4,000 acre ranch. After considerable testing, he started selling NON GMO KBO Crunch deer feed in 2021. Today, Mt. Hope Elevator is excited to partner with Brad to manufacture & distribute this tremendous feed.
