

**Pure & Honest.** Whole grains are Avena's quality protein source. They are easily converted to growth energy with Natural Way Minerals working in harmony with amino acids (Lysine) to break down and transport the protein. Avena feeds are made from only premium Non-GMO ingredients with no fillers, byproducts, or medications. We work closely with independent nutrition specialists to formulate feeds that help your animals achieve more with less feed.

**AVENA CHICK STARTER** is a non-medicated chick starter without any harmful growth hormones, benefiting both the bird and the consumer. Enhanced with NWM prebiotics and probiotics, this blend is formulated to fight bad bacteria and build up the immune system. By keeping sicknesses at bay, it allows the chick to channel its energy into healthy growth.

#### Features

- No harmful growth hormones
- A complete feed from 1 day old to 7 weeks
- Builds the immune system

#### Feeding Directions

Feed to broiler chicks from 0-4 weeks old.  
Feed to layer chicks from 0-7 weeks old.

**21% protein | 4% fat | 50 lb bag**

*\*If you're concerned about potential loss with a non-medicated feed, then simply add Natural Way Mineral's Knockout and Vita-Min-Liq to their water for the extra boost some chicks require.*

**AVENA POULTRY GROWER** contains naturally mined minerals (NWM) and Lysine, which convert protein into growth with less effort. Fortified with NWM probiotics and prebiotics, it boosts digestibility and improves their immune systems, ensuring your birds thrive without medication. Reduce wasted energy on fighting sickness and say hello to healthy, growing birds!

#### Features

- Promotes healthy growth
- Better digestibility
- Improved immune system

#### Feeding Directions

Feed to broilers from 4 weeks to market.  
Feed layer chicks from 7 weeks to 16 weeks.

**19% protein | 4% fat | 50 lb bag**

**AVENA LAYER MASH** is designed as a complete ration for laying chickens. This feed has proven to boost the amount of eggs produced. And not just eggs, but eggs that are visibly brighter in color and hold their shape in a skillet. The Natural Way Minerals included in this formula aid digestion and improves the bird's immune system, creating a premium feed with healthy results.

#### Features

- Brighter, healthier eggs
- More eggs with less feed
- Improved overall health

#### Feeding Directions

Start feeding to layer hens at 16 weeks old.  
Can be fed throughout the rest of the bird's lifespan.

**16% protein | 3% fat | 50 lb bag**

“ While feeding our meat birds, we encountered issues with pecking behavior resulting in losses. Upon switching to Avena feed, we noticed a significant improvement within a week—the pecking issue resolved completely. I highly recommend Avena to anyone facing similar challenges. -Brandon ”

# Avena

Always Non-GMO

## Trying to get away from medicated feed? Avena is a great option for turkey growers like you.

### Protein Delivery

Lysine is an amino acid added to Avena feeds, used to transport protein to the bloodstream and beyond. The Natural Way Minerals in this feed only enhances this process, helping to transform protein into meat on the bones and a healthy bird.

### Super Charged Immunity

Since these turkey feeds are non-medicated, they are supplemented with Natural Way Minerals (NWM) prebiotics and probiotics. These fight the bad bacteria and build up the good, creating a super charged immune system. By eliminating sicknesses, the birds can focus their energy into healthy growth.

### Filter Included

Biochar works like a coffee filter- sifting out the bacteria that would otherwise clog the system. This carbon buffer both binds and eliminates the bad stuff.

## Available in Bulk! Delivered to your bin.

### AVENA TURKEY STARTER

28% protein | 5% fat
